

X_Trader

The most powerful trading tool for high volume traders

The X_TRADER & X_TRADER Pro tools set has always given professional derivatives traders the edge with superior speed, stability and accuracy.

Advanced Integrated Tools:

X_TRADER platforms provides integrated charting with X_STUDY and MD Trader - Innovative technology to meet the demands of the most aggressive traders is combined with ease of use and safety features, which enables you to get up and trading in a matter of moments.

Both versions incorporate the standard features that X_TRADER has become known for:

- Simultaneously trade multiple products and multiple markets from one fully-customizable screen in real time
- High-speed connections to the leading derivatives exchanges
- Single-click trade execution and order cancellation
- Patented MD Trader vertical market depth display allows immediate reaction to market ebb and flow
- Fully-customizable desktop to match personal trading styles and preferences
- Excel spreadsheet and analytics links
- Single-window access to view working orders, fills and market depth
- Average price highlighting to show at a glance whether open positions are profitable relative to market conditions
- Real-time fill and position details with easy access and dynamic audit trail
- Support for market orders, limit orders, multiple contract orders, calendar spreads and inter-product spreads plus specialized order contingencies such as GTC, FOK, IOC and Stops
- Market maker functionality to make two-sided markets on any instrument

X_TRADER Pro, TT's premium trading software, delivers a tremendous package of added functionality that features the Autospreader and Autotrader automated trading tools and connectivity to all TT-supported markets.

X_TRADER Pro also provides free access to TT's complete suite of plug-in products and the X_TRADER API, so you can expand the functionality of X_TRADER Pro with TT's off-the-shelf plug-in tools or create your own custom applications to meet your unique needs.
