Fill Ticker Synopsis

Fill Ticker is a custom tool for a risk administrator or trader. It is a plug-in application for X_TRADER® Pro that has one server and many clients. Whenever a fill that is greater than a certain quantity is completely filled within a firm, Fill Ticker will send a message to all of the clients. The Fill Ticker client launches with X_TRADER and runs in "minimized" mode. When a message comes in, Fill Ticker will change to its original "full view" mode, display the message for five seconds and then return to "minimized" mode.

Key Features

- Fonts are customizable for each client
- Buys indicated with blue background, sells indicated with red background
- Configuration file to exclude certain traders
- Server application displays all messages that passed criteria for that day
- Threshold can be configured mid day
