Landscape Synopsis

Landscape is an X_TRADER® Pro plug-in application that allows a position trader to choose what they would like their Net Position to be at the end of the day and track their progress against it. Landscape then creates a graph to show the trader's Net Position relative to the chosen end-of-day position is thereby making it very easy to visualize what is done and what is left to do.

Key Features

- Visualize positions needed for the day
- Real-time updates to Net Position for each product
- Color coded to quickly discern Buys from Sells
- Resizable to fit in any windows location

Requirements: X_TRADER Pro
X_TRADER API

Suitable Market: Trader
