### SOD Chopper Synopsis

SOD (Start of Day) Chopper is an X\_TRADER® plug-in application for the risk administrator. SOD Chopper consolidates the back office file that is used for SOD records. This consolidation is much needed when groups exist within companies that have their own gateways. Users can specify account numbers that match the selected criteria.

### Key Features

- Values are automatically stored when the application closes to eliminate the need for manual saves at the end of each day
- Easily create and save multiple configurations
- Easily add or remove master list account numbers
- Account list is stored in alphanumeric order for easy perusal
- Can include or exclude any account from a run by account number
- Validates data before file creation to prevent erroneous data
- Reports detailed error messages if data validation fails

**Requirements:** X\_TRADER

**Suitable Market:** Risk Administrators
